

SHREE HARINI S

COMPUTER SCIENCE STUDENT

SUMMARY

Motivated and detail-oriented Computer Science student with strong programming skills in **Python, C, and object-oriented programming**. Proficient in **software development, algorithm design, and debugging**. Experienced in building and maintaining **user-centric applications** that improve usability and performance. Skilled in collaborating on **cross-functional projects**, writing **clean and efficient code**, and applying **data structures and algorithms** to solve real-world problems. Seeking an internship or entry-level software engineering role to contribute technical expertise and gain industry experience.

EXPERIENCE

Livestream Technologies

Coimbatore, Tamil Nadu, India

Intern

05/2023 - 06/2023

Internship experience related to software development

- Completed internship at Livestream Technologies

Zidio Development

Bangalore, India

Intern

06/2025 - 09/2025

Zidio Development is a fast-growing IT services and software development company in Bangalore, specializing in web, mobile, UI/UX, and data-driven solutions.

- Java full stack app boosted performance .

EDUCATION

Jansons Institute of Technology

Coimbatore

B.E. Computer Science and Engineering

08/2022 - 03/2026

PROJECTS

Software Development Projects

08/2023 - Present

Coimbatore, Tamil Nadu, India

Various projects focused on practical applications of technology in real-world scenarios

- Developed a mobile app to control motor and valve systems using Firebase Realtime Database
- Created a smart system to automate irrigation for farmers, improving efficiency and saving water
- Participated in the Smart India Hackathon with a solution addressing a real-world government-provided problem statement
- Contributed to a tech-driven project promoting Indian Knowledge Systems (IKS)
